

Project Overview

This project focuses on manual data entry and verification of 50 coffee shops in Karawang Regency, Indonesia.

All data was collected directly from Google Maps to ensure accuracy and real-world relevance.

Each coffee shop record includes essential business information such as name, address, contact details, rating, and estimated price range per person.

To improve usability, each address column contains a direct Google Maps hyperlink pointing to the exact location of the coffee shop.

Dataset Fields

The dataset consists of the following columns:

- Name – Coffee shop name
- Address – District-level address with embedded Google Maps hyperlink
- Contact – Phone number (when available)
- Rating – Google Maps user rating
- Price Range / Person (IDR) – Estimated spending range per visitor

Tools & Skills Used

- Google Maps (data source & location verification)
- Microsoft Excel / Google Sheets
- Manual data entry & validation
- Data cleaning (handling missing values & inconsistent formats)

Sample data (Preview)

The screenshot shows a Microsoft Excel spreadsheet titled "50_coffeshop_karawang - Excel". The data is presented in a table with columns labeled A through O. Column A contains row numbers from 1 to 22. Columns B through E contain specific data points: name, address, contact, rating, and range price/person (idr). The data includes various coffee shop names like "La Madre Coffee & Roastery", "vion coffee karawang", and "bangi cafe karawang", along with their addresses, contact numbers, ratings (e.g., 4.7, 4.6, 4.5), and price ranges (e.g., 50000-75000, 25000-50000). The Excel interface shows standard ribbon tabs like Home, Insert, Page Layout, etc., and a status bar indicating the file path and date.

Data Quality Notes

- Missing contact numbers are left blank to preserve data integrity
- Price ranges follow common local spending patterns
- Ratings are taken directly from Google Maps at the time of data collection

Use Cases

This dataset can be used for:

- Business listing & directory creation
- Market analysis of coffee shops in Karawang
- Location-based analysis & mapping projects
- Data entry & data cleaning portfolio showcase
